Site Development Permit Application Checklist: Basic and Advanced Abbreviated Plan (Projects Meeting Minimum Requirements 2 and 4 or 1-5).

What is a Basic or Advanced Abbreviated Plan?

A basic abbreviated plan is typically required for projects that only need to meet Minimum Requirements 2 and 4 of the Pierce County Stormwater and Site Development Manual. Whereas projects that trigger Minimum Requirements 1-5 will require an advanced abbreviated plan submittal. Both plan requirement types may be used for a wide variety of projects including but not limited to; Single family, commercial and grading/clearing development activity.

Minimum submittal requirements:

Electronic Documents	Required
 Site Development/Construction Drawings	Yes
 Supporting Documents and Calculations	Project Dependent
 Construction SWPPP*	Project Dependent
 Soils Report*	Project Dependent
 Copies of all Easements & Deeds	Project Dependent
 Maintenance Covenant*	Project Dependent

*Typically only included for Advanced Abbreviated Plans

All required electronic documents must be appropriately named and submitted in order as shown above in order to facilitate processing the electronic submittal.

Please Note:

- All requested documents must be typed or neatly printed in ink.
- All submittal documentation must be electronic (flash/thumb drive or CD) only.
